

Change the password of MetaTrader 5 software in Windows version

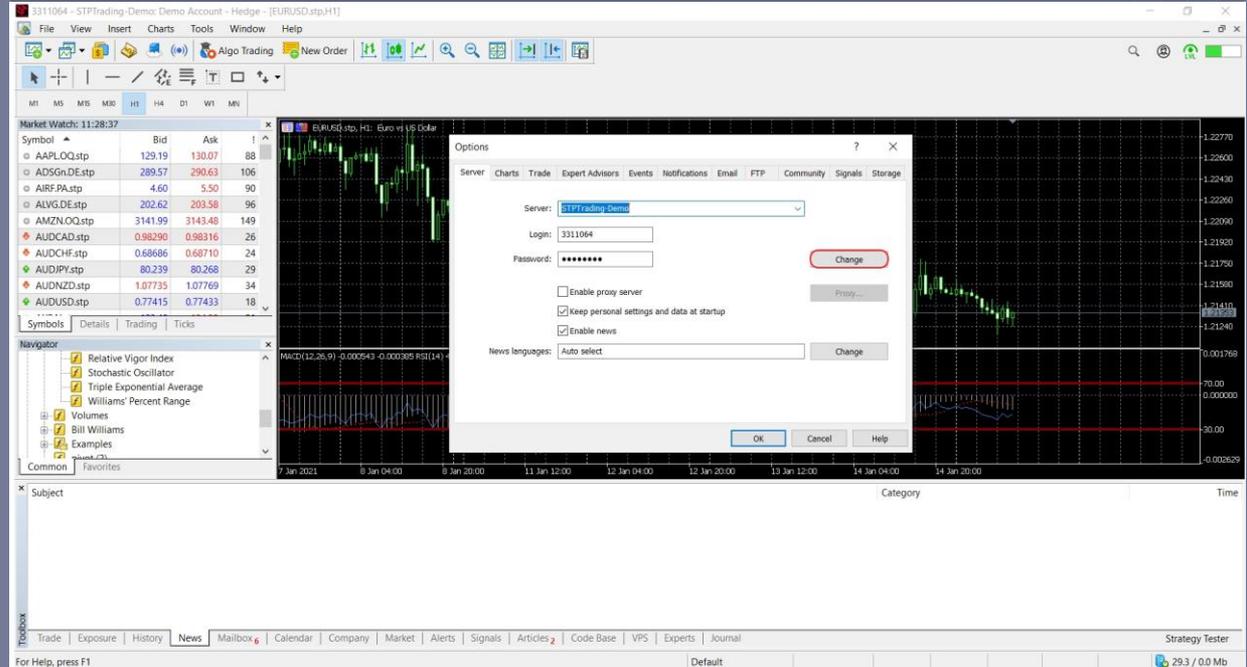

Change the password in Windows version

1. First, click on the **Tools** section.
2. Then click on **Options**.

Change the password in Windows version

3. Click on **change** button.

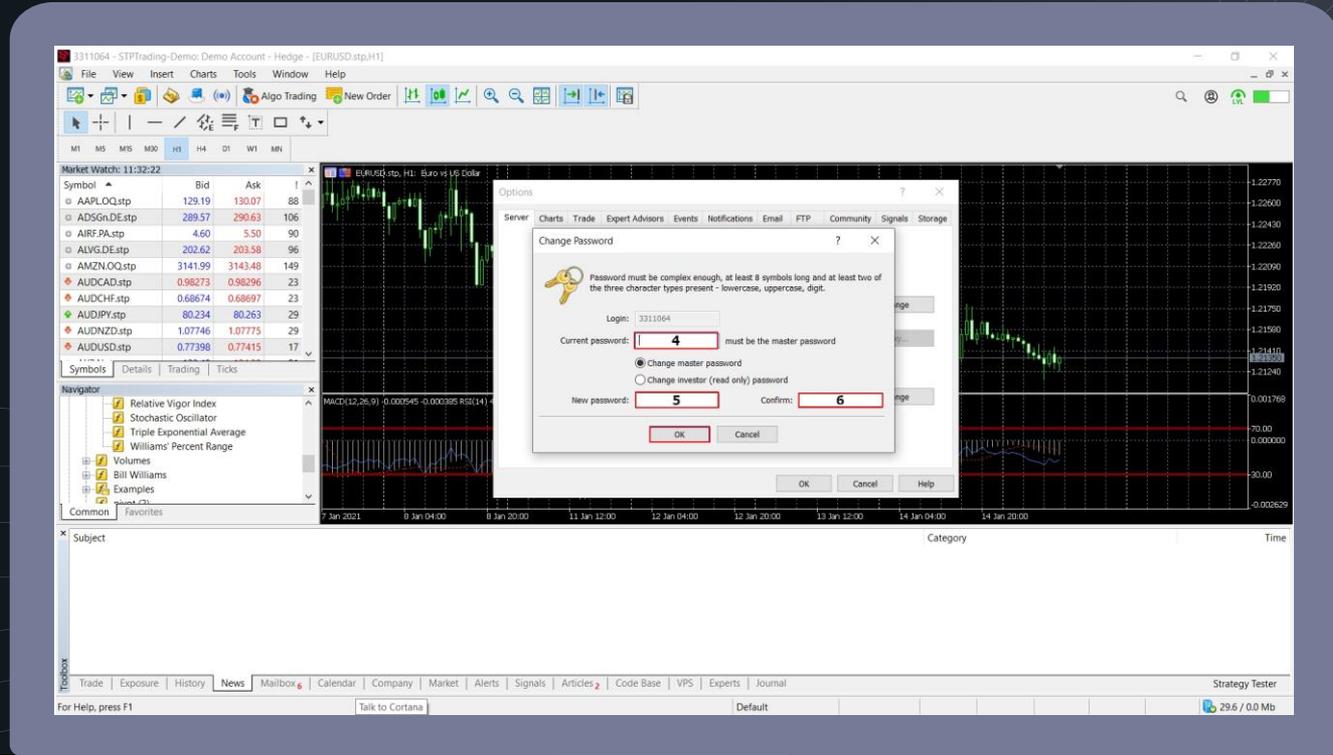

The screenshot shows the STP Trading software interface. The main window displays a Market Watch table, a Navigator panel, and a chart area. An 'Options' dialog box is open in the foreground, allowing the user to change their password. The dialog box contains the following fields and options:

- Server: STPTrading-Demo
- Login: 3311064
- Password: [masked]
- Buttons: Change (highlighted in red), Proxy...
- Options:
 - Enable proxy server
 - Keep personal settings and data at startup
 - Enable news
- News languages: Auto select
- Buttons: Change, OK, Cancel, Help

Change the password in Windows version

4. Enter your previous password in the **current password** field.
5. Enter the new password in the **New password** field.
6. In the **Confirm** field, repeat the new password.
7. Then click **Ok**.
